

PEAK EDGE

ACADEMY TRUST

WORKING TOGETHER TO GET THE BEST OUT OF OUR STAFF - IT'S GOOD TO TALK!

Trust Update #1:
Dec 2020

AMBITION - Giving newly and recently qualified teachers the best start

Our newly and recently qualified teachers learn from experienced teachers and each other to support them with things like communication with parents, ways to manage behaviour, how to manage their time and how to prioritise effectively.

INNOVATION - Foundation, Year 2 and Year 6

All years matter, but these are important milestones. Teachers meet every term to make sure the standards children are working to are consistent, and to share the best ways to help children achieve their potential.

In total the six schools in our Trust have:

1,346
pupils

65
teachers

159
staff

Our staff enable the smooth running of everything including managers, administrative staff, Teaching Assistants, site staff, catering and cleaners.

We learn a lot from each other and make sure we don't miss opportunities to work together.

COLLABORATION - Deputy Headteachers

Our Deputies have worked together closely to consider how and what the children study and design an engaging curriculum that is bespoke to each school. As a team they do a lot of technical work which makes teaching and learning effective and adaptable, such as making sure that children still learn things in the right order when their school attendance has been disrupted by Covid-19.

RESPONSIBILITY - Headteachers

In the face of such a challenging time since March, the Headteachers in the Trust have been able to work together and, importantly, support each other. As a team they have created processes from scratch, including successfully reopening the schools and keeping on top of Government guidance.

OUR VALUES ARE

Trust | Collaboration | Ambition | Responsibility | Innovation
