

Stannington Infant School Curriculum for the Teaching of Reading

Through carefully chosen texts we are able to build on pupils' strengths, interests and experiences and develop their confidence in their capacity to learn and work independently and collaboratively. Alongside these texts we provide a rich language environment that promotes and celebrates a culture of reading and writing allowing our children to develop an interest and love of books and literature which will stay with them for life. This selection of books helps to develop children's confidence and encourages them to see themselves as readers and writers for pleasure and purpose. Our reading approach equips children with the range strategies necessary to develop reading fluency and accuracy whilst giving opportunities to express their creativity and explore their imagination through drama, play and in written forms.
